DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

 I. Prior claims 2 and 3, drawn to a sheet, classified in class 428, subclass 332.

 II. Present claims 2 and 3, drawn to a method for protecting paint films of automobiles, classified in class 156, subclass 60+.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are related as product and process of use. The inventions can be shown to be distinct if either or both of the following can be shown: (1) the process for using the product as claimed can be practiced with another materially different product or (2) the product as claimed can be used in a materially different process of using that product (MPEP § 806.05(h)). In the instant case the product can be used for many uses other than protecting paint films of automobiles, such as adhering price stickers to automobiles, protecting windows from paint spray, to any use of known "masking tape" type adhesives.

3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

4. No telephone call was made to request an oral election because the only remaining claims were directed to Group II.

5. Newly submitted claims 2 and 3 are directed to an invention that is independent or distinct from the invention originally claimed for the following reasons: as shown above in Paragraphs 1 – 3, present claims 2 and 3 are distinct because of their different classification and different statutory subject matter.

Since applicant has received an action on the merits for the originally presented invention, this invention (i.e. Group I) has been constructively elected by original presentation for prosecution on the merits. Accordingly, present claims 2 and 3 are withdrawn from consideration as being directed to a non-elected invention. See 37 CFR 1.142(b) and MPEP § 821.03.

6. The amendment filed on November 6, 2002 removing all claims drawn to the elected invention and presenting only claims drawn to a non-elected invention is non-responsive (MPEP § 821.03). The remaining claims are not readable on the elected invention because they have been withdrawn from consideration as being directed to a non-elected invention.

Since the above-mentioned amendment appears to be a *bona fide* attempt to reply, applicant is given a TIME PERIOD of ONE (1) MONTH or THIRTY (30) DAYS, whichever is longer, from the mailing date of this notice within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD UNDER 37 CFR 1.136(a) ARE AVAILABLE.
